

Youth & Cyberbullying: What Families Don't Know Can Hurt Them

The A WORLD OF DIFFERENCE® Institute's **Cyberbullying: What Families Don't Know Can Hurt Them** is a training for adult family members that will increase their awareness about the unique features and impact of cyberbullying, provide strategies and foster an increased culture of e-safety among youth.

For the current generation of youth, e-mailing, IM-ing, text-messaging, social networking, chatting and blogging are a vital means of self-expression and a central part of their social lives. There are increasing reports, however, that many youth are misusing online technologies to bully others.

"I am walking out of this workshop feeling prepared to have a real conversation with my child about the realities of cyberbullying" — Parent

Goals:

- To increase understanding and awareness about the problem of cyberbullying
- To demonstrate the ways in which cyberbullying occurs and its unique features and impact
- To provide families with tips to respond effectively to cyberbullying
- To inform families about school's legal and ethical responsibilities to respond to cyberbullying that occurs on and off campus

Did you know?

- Studies of internet-using adolescents indicate that 43% of young people (approximately 10 million) have been the targets of cyberbullying and more than 10% (approximately 3 million) have bullied others online.
