NATIONAL UPDATES & RESOURCES

Some 2022 Left-Wing Candidates Espouse Troubling Rhetoric on Israel

In recent years, hateful and extremist beliefs have penetrated into mainstream spaces, sabotaging civil discourse. One place you can see this distressing development is in the stream of antisemitism coming from the political left, often related to Israel.

[This new ADL report](#) explains how some candidates in the 2022 election cycle who hail from the political left have embraced themes related to Israel that range from incendiary, to dangerous and antisemitic.

Justin Finkelstein, Analyst for ADL's Center on Extremism, joined ADL NY/NJ Regional Director Scott Richman on a recent [From the Frontlines](#) podcast for an interview about this report.
