

Serving New York State, Northern & Central New Jersey

Just two weeks ago, ADL was honored to co-chair the 60th Anniversary March on Washington--a historic moment to continue, not commemorate, the important work of fighting against hatred and for fair treatment to all. I wanted to take a moment to share my thoughts and reflections from this momentous weekend.

The night before the March, ADL held an inspiring community Shabbat, with over 500 people in attendance. Reverend Sharpton, the King family, several members of Congress, and many leaders of other community organizations joined ADL in experiencing traditional Shabbat blessings and sharing a meal together. I was honored to be in attendance and feel the powerful joy that was present around us all.

The day of the March, we heard from dozens of community leaders and activists, including our own CEO Jonathan Greenblatt. It was absolutely inspiring to stand alongside hundreds of ADL supporters, all wearing our blue t-shirts and holding signs, and know how significant and historic of a moment we were sharing. Alongside thousands of other civil rights partners, we truly made history in the fight against hate.

If you weren't able to be at the March on Washington, I encourage you to visit the video playlist linked below. I hope you will be as inspired as I was over that weekend to move forward together in continuing ADL's mission.

Scott Richman

ADL UPDATES & RESOURCES

Thousands of allies, partners, and friends came together in Washington D.C. to commemorate Martin Luther King Jr.'s March on Washington 60 years ago. At a time when so many communities are facing hate, we all must stand together and march towards justice and fair treatment for all.

Antisemites, Racists and Other Bigots are Hijacking Public Meetings

ADL's Center on Extremism is tracking an increase in antisemitic speech and trolling efforts at public forums such as city council, county board and state house committee meetings. Extremists and bigots are using the public comment portion of these events, especially those with the option to call in virtually, to push antisemitic, white supremacist and anti-LGBTQ+ narratives.

From Bad To Worse: Amplification and Auto-Generation of Hate

A new pair of studies from ADL and TTP (Tech Transparency Project) show how some of the biggest social media platforms and search engines at times directly contribute to the proliferation of online antisemitism, hate, and

extremism through their own tools and, in some cases, by creating content themselves.
